DETAILED ACTION

This Office Action is in response to the amendment filed on 3/21/05.

Allowable Subject Matter

Claims 1-7 are allowed.

The following is an examiner's statement of reasons for allowance: Applicant's arguments are persuasive. The Baldwin et al., Goutzoulis et al. and Jou et al. references cited in the previous Office Action all teach discretely variable optical delay lines comprising a plurality of switchable binary paths configured to provide signal delay paths selected from a sequence of discretely differing delays. However, none of the prior art of record discloses or suggests a continuously variable optical delay line serially optically coupled with the discretely variable delay line which provides a continuously variable delay line from a range of delays substantially encompassing a delay increment in the discretely variable delay line.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

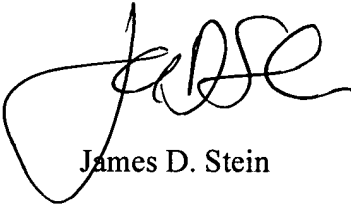

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James D. Stein whose telephone number is (571) 272-2132. The examiner can normally be reached on M-F (8:00am-4:30pm).
